PROFESSIONAL SUMMARY

Detail-oriented and driven Computer Science (Software Engineering) graduate from UMPSA with experienced in developing scalable and efficient solutions with a creative mindset and strong collaborative spirit. Recognized for reliability, adaptability, and a solid work ethic throughout academic and internship experiences. Proficient in modern development tools and frameworks, with a passion for continuous learning and innovation. Actively seeking full-time opportunities starting September 2025 to contribute to impactful software development projects in a dynamic, team-oriented environment.

CORE EXPERTISE

- Full-Stack Web Development
- Version Control Systems
- UI/UX Design
- UI/UX Fundamentals & Prototyping
- Software Engineering Principles
- Low Code Mobile App Development
- Problem-Solving & Continuous Learning
- Software analysisist & Documenting

EDUCATION

- Bachelor of Computer Science (Software Engineering) with Honours | CGPA: 3.54** Oct 2021 – Present
Universiti Malaysia Pahang Al-Sultan Abdullah (UMPSA), Pekan, Pahang
- Matriculation Certification of Malaysia | CGPA: 3.33** May 2019 – May 2021
Pahang Matriculation College, Gambang, (KMPH), Pahang

WORK EXPERIENCE

Internship Programmer Mar 2025 – Aug 2025 (Expected)
SALIHIN IT Curation

- **System Development:** Assisted in developing and optimizing web applications using CodeIgniter, Laravel, and Vue.js.
- **UI Development:** Designed and developed responsive, user-friendly interfaces using Vue.js and Tailwind CSS, translating design ideas into functional front-end components.
- **Issue Resolution:** Supported in resolving technical issues related to database queries, UI responsiveness, and logic errors.
- **Feature Implementation:** Contributed to modules for recruitment and membership management systems, enhancing user experience and functionality.
- **E-Invoicing Integration:** Gained hands-on experience in building and troubleshooting e-Invoice systems to ensure accurate and seamless integration.
- **Team Collaboration:** Worked closely with developers and supervisors to deliver clean, maintainable code and meet project requirements effectively.

PROJECT EXPERIENCE

SALIHIN – E-Recruitment System (ERS)

- Contribute to a dual-interface recruitment platform for managing job applications and administrative hiring workflows.
- Develop the admin dashboard using Laravel and Vue.js, while building the candidate portal using CodeIgniter 3 with a modern CUBA-based UI design.

SALIHIN – Suruhanjaya Koperasi Malaysia System (SKM)

- Contribute to a Developed and optimized a membership management system for a cooperative (Koperasi) using CodeIgniter 3 and MySQL.
- Implemented features for member registration, resignation processing, and nominee management, improving overall system efficiency.

Final Year Project (Kitty's Cupid: A Cat Breeding Recommendation System)

- Designed and developed a mobile-based cat dating application using the Flutterflow, designed to match cats based on breed, gender, and preferences to help owners find ideal companionship for their cats.
- Created an intuitive interface that allows users to input cat profiles and receive breed- and preference-based recommendations for potential matches.

Augmented Reality (VirusVector: Mumps Disease Augmented Reality Application)

- Designed and developed an engaging AR educational experience using Unity and Blender to raise awareness about Mumps.
- Demonstrated strong skills in visual design, interactive storytelling, and blending UI/UX with AR technology.

Game Programming (Rajah Borneo Quest: Reviving Segindai Game)

- Actively contributed to the development of a 2D adventure game in Unity, inspired by the traditional Segindai game to celebrate and preserve local cultural heritage.
- Designed gameplay mechanics, character interactions, and environment visuals to create an engaging and educational user experience.

CERTIFICATIONS & AWARDS

- Microsoft Certified: Power BI Data Analyst Associate certification.
 - Microsoft Certified: Azure Data Fundamentals certification.
 - Dean's List Award – UMPSA: Recognized for academic excellence in Semesters 2, 6, and 7.
 - Awarded the Gold Medal in Aerodance during the Faculty Sports (SUKFAC) competition at Universiti Malaysia Pahang Al-Sultan Abdullah.
-

RELEVANT SKILLS

Technical Skills:

- **Design & Prototyping:** Figma, Adobe XD, Flutterflow
- **Programming Languages:** JavaScript, PHP, HTML5, CSS, SQL
- **Frameworks & Libraries:** Laravel, Flutter, Bootstrap, Vue.js, CodeIgniter 3
- **Database & Tools:** MySQL, Docker, XAMPP, Laragon, GitHub, VS Code, Unity (2D)

Languages:

- **Malay:** Native
- **English:** Proficiency
- **Mandarin:** (Personal Learning)
